Michał Malewicz & Diana Malewicz

Designing User Interfaces

Exclusive Video Materials

Video Tutorials

Hello! Michał and Diana here. 👋

**Thank you so much for purchasing "Designing User Interfaces"!**

As this is a living, breathing ebook, we are updating it with new content throughout the year. While working on a video design course, we will share some of the videos with you for free.

Red Square Method

The first piece you can watch right now is a special, hidden video (just for you!) on how to use the Red Square Method to align user interfaces.

Link to the video:

https://youtu.be/I9CKtSm-fHw

Exclusive Live Streams

Our Live Redesign Exercises

We hosted 3 live-redesign exercises on YouTube in the last few months. While the streams were FREE to join, the recordings from them were afterwards hidden.

They are now exclusively available to you to watch anytime.
The channel is of course full of other, completely free materials, so worth subscribing too :)
